# Lucey feels as if somebody handcrafted a quilting machine just for you.

When you quilt with Lucey, you'll quickly understand why APQS quilting machines are known for being easy to use and simple to operate. Everything is designed, engineered and crafted to be approachable, inviting and simple to use. Lucey offers the throat space of our top-of-the-line machines - making it an exceptional value.

## What makes Lucey unique?

### Features that add exceptional value

Lucey has the throat space of our top-of-the line machines for more quilting space and offers simple features without compromising quality. Dial in the stitch length you want using the easy side-panel control. Enable the stitch regulator with a simple button push, and you're ready to quilt.

### Straight line horizontal quilting

The built-in horizontal straight line quilting lock helps you load quilts quickly and easily, keeping them straight and secure. Easily baste quilts for hand quilters.

### Front & rear multi-position handles

Easily adjust Lucey's multi-position front and rear handles from both sides of the machine to fit you comfortably. The front handles are independently adjustable up and down while also featuring tilting hand grips to help you enjoy longer quilting sessions and avoid muscle strain. Their design provides great needle visibility and lets you quilt longer with less fatigue.

### Standard Bliss™ Table

Our Standard Bliss Table offers great time-saving features and comes in 8-, 10- and 12-foot lengths. For example, all the quilt layers load from the top so you can easily change the bobbin in the middle of the quilt, smooth out batting, or even sit as you quilt. Two simple compression brakes hold the rollers in place, allowing you to independently adjust each quilt layer for smooth quilts.

All machines come standard with our exclusive Bliss Track System. Specially designed horizontal wheels on the sewing head and roller bearings on the table rails provide smooth, effortless movement, allowing you to quilt for hours without feeling tired.

Lucey owners can upgrade to a Deluxe Bliss Table, which makes it possible to add the Automatic Quilt Advance and Overhead Lighting to the machine.

### Available options for Lucey

- Quilt Path™ computerized quilting system
- Overhead lighting\*
- Deluxe Bliss Table upgrade
- Automatic Quilt Advance with foot pedal control\*
- Hydraulic table lift
- In-home set-up by factory-certified technician
